

## JointX Pro™

Nutritional support for joints, cartilage and muscular-skeletal health and mobility\*

### Primary Applications\*

- Acts as an effective anti-inflammatory
- Supports joint mobility and flexibility
- Supports healthy cartilage
- Promotes comfort in all joints, including knees, lower back and small joints

### What is JointX Pro?

JointX Pro is formulated to provide a natural alternative for joint and cartilage health. Regular use will help to maintain health and mobility in the muscular-skeletal system without the risk of side effects.\*

### Ingredients

#### Devil's claw (*Harpagophytum procumbens*)

Both in vivo and in vitro research has demonstrated the anti-inflammatory properties of Devil's Claw. This ingredient has performed well in clinical trials without the negative side effects. Studies have also demonstrated benefit for people suffering from small joint, lower back and knee discomfort, with measurable reductions in uric acid and leukotriene levels being at least part of the anti-inflammatory mechanism.\*

#### Indian frankincense (*Boswellia serrata*)

Studies have demonstrated the ability of *Boswellia* to inhibit pro-inflammatory mediators in the body and to reduce inflammation without irritating or ulcerating the stomach lining. Specifically, boswellic acids contained within the herb have been shown to block the formation of leukotrienes, the immune cells responsible for inflammation, while promoting joint comfort and flexibility.\*

## Supplement Facts

Serving Size 2 Tablets  
Servings Per Container 30

Amount Per Serving		% DV
Devil's claw ( <i>Harpagophytum procumbens</i> )(root)	334mg	†
Indian frankincense ( <i>Boswellia serrata</i> )(gum)	334mg	†
Glucosamine sulfate	332mg	†

† Daily Value (DV) not established.

Other Ingredients: gum acacia, magnesium stearate

Directions: Take 1-2 tablets 3 times daily with food.  
Caution: Safety during pregnancy and breastfeeding not yet established.  
Do not use with blood thinning medication unless under medical supervision.  
Not recommended for people with duodenal or gastric ulcers or for those with an allergy to shellfish. Use with caution if suffering from gastric ulcers.

Contains crustacean shellfish (shrimp, crab)

All NutraRx products are especially formulated by experts in the field of natural health and are manufactured according to the highest pharmaceutical standards for maximum safety and effectiveness.

## Ingredients ( continued )

### Glucosamine sulfate

Glucosamine is an amino-monosaccharide naturally produced in the human body and is essential in the biosynthesis of macromolecules comprising articular cartilage, thought to play a role in cartilage formation and maintenance. There is mounting and compelling evidence from randomized controlled trials that Glucosamine has significant benefits in promoting joint health, especially in the hip and knee. Benefits for the Temporomandibular Joint (TMJ) have also been clinically demonstrated.\*

### For Optimum Results

While an almost immediate response is sometimes apparent, it is more common that gradual improvement is noted over a period of about 3-6 weeks.

## Other Products in this Category

### Arnica Pain & Healing Complex™

Homeopathic therapy to temporarily reduce swelling & bruising during post-operative and post-traumatic healing

### Inflam Dr.™

Homeopathic compound formulated with powerful anti-inflammatory agents to temporary relieve pain & inflammation in the joints

### SciatiX Pro™

Nutritional support for the spine and nervous system to promote nerve health & comfort\*

### Migra-Rx™

Nutritional support for the circulatory system, liver and nervous system to promote calm & discourage common nervous tension for clear-headed comfort\*
